ISLAMIC REPUBLIC OF IRAN

TRADE STRATEGIES

2015

Laws & Regulations

- There is no tariff quota applied in non-agricultural section in I.R. Iran's trade regime
- Iran's NTS is currently 18.75 per cent
- The figure is 17.12 per cent for industrial goods and 26.43 per cent for agricultural goods
- 2,474 tariff lines (that is 34 per cent of the total tariff lines) have the minimum tariff rate of 4 per cent (which has the highest frequency among tariff slabs)
- About 54.3 per cent of the tariff lines have tariff rates less than or equal to 10 per cent
- Goods having tariffs more than 64 per cent constitute equal or less than 15 per cent of the tariff lines in the NTS
- The highest and lowest tariff rate in NTS is 75 and 4 per cent
- There is no tariff quota applied in non-agricultural section in I.R. Iran's trade regime
- No country receives tariff exemption except those, which have preferential trade agreement with I.R. Iran
